

NO Drug Injection Site Near SCHOOLS!

NO Sex Offenders Near Families!

Take Action. Get Involved NOW!

Support homeless in our community in a responsible manner! Keep our community safe!

King County is purchasing La Quinta Inn for more than \$10M to use as a Homeless Housing in Kirkland

What We Do Know

Walking Distance to schools and pre-schools.

More than 12 schools, pre-schools, daycares and learning centers with more than 2000 registered students in about 1 mile radius.

Homeless problem may snowball in the area.

No plan on where to place tenants of the homeless hotel if they are expelled or chose to leave the homeless hotel, very likely, they will go back to camping and stay around the Kirkland / Bellevue area.

County official admitted 911 calls went up after Renton Red Lion hotel converted to a Homeless Hotel.

The county and City are rushing to closing the deal in a few days without fully listening the input and addressing the concerns from the neighboring communities.

What We Demand

- 1. Transparency! The community was not told of the decision. Let us be part of it!**

We, people of King county, demand transparency and clarity of any projects impacting our community before the decision is made. This site should not be purchased and converted without public input.

- 2. Effective security and Accountability for the safety of the children, staff in schools, and local families.**

What We Need To Do Right Now

Send email to or call city council, and let them hear our voice!
